SBS MODIFIED, METAL-CLAD CAP MEMBRANE FOR HOT/TORCH APPLICATIONS

Both ERS-600A membranes are composed of selected SBS modified bitumen on a heavy-duty fiberglass scrim.

ERS-600A TORCH has an aluminum topside with a polypropylene burn-off film on the bottom side for a torch-down application. ERS-600A MOP has the same aluminum top surface but comes with a sanded bottom for hot mop or cold adhesion.

When heat-welding, use a damp sponge or mop to cool the metal film immediately after application.
