ECO-SNAP METAL COPING SYSTEMS

## ECO-SNAP METAL SYSTEMS

### ECO-SNAP METAL SYSTEMS

Eco-Snap metal Accessory systems are designed specifically for vulnerable roof perimeters (coping & fascia). Accessories include fascia extenders, gutters, downspouts, and scuppers. Custom color matching is available upon request.

### THE RIGHT CHOICE OF METAL MATERIALS

Our Eco-Snap metal systems are perfect for any commercial or residential applications and are available in an additional two popular metals, Aluminum & Copper.

### THE RIGHT CHOICE OF COLORS AND FINISHES

Eco-Snap metal comes in a variety of stock, premium, and anodized colors. Finishes are available in Kynar 500 or Hylar 5000 resins which resist chalking and fading.

Contact our main office or one of our local technical consultants for assistance on the proper system for your application.
