ERS-INSULATION ADHESIVE-G

ONE STEP ELASTOMERIC INSULATION ADHESIVE

ERS-INSULATION ADHESIVE-G is a two-part, 100% solids, all-purpose insulation adhesive that is specifically designed to provide unsurpassed adhesion of a variety of roofing insulation boards to virtually any deck type. The foaming action of ERS-INSULATION ADHESIVE-G is controlled to prevent surface irregularities, while still filling gaps between the insulation and the substrate and ERS-INSULATION ADHESIVE-G comes in pre-measured binary units with built-in mixing spout. To save labor costs and eliminate poor adhesion due to inconsistencies in mixing. The list of materials ERS-INSULATION ADHESIVE-G can adhere to is impressive: Gypsum, HD wood fiber, cementitious wood fiber, isocyanurate, polystyrene, lightweight insulating concrete, perlite, wood, steel, modified bitumen membranes – sanded or granule surfaced, gypsum and asphaltic cover boards, and concrete.

Pre-measured Cartridges Save Labor

ERS-INSULATION ADHESIVE-G is easily installed with battery powered applicators to substantially reduce labor costs. Using ERS-INSULATION ADHESIVE-G also eliminates the noise caused by drilling holes for old style, unsightly, mechanical fasteners, that reduce deck strength, can corrode, and can result in leaks caused by fasteners backing out. The list of materials ERS-INSULATION ADHESIVE-G can adhere to is impressive: Gypsum, HD wood fiber, cementitious wood fiber, isocyanurate, polystyrene, lightweight insulating concrete, perlite, wood, steel, modified bitumen membranes – sanded or granule surfaced, gypsum and asphaltic cover boards, and concrete.

GENERAL DATA

Packaging	4-1.5 Liter pre-measured cartridges w/ mixing spouts
General Application Rate	Approx. 600 Square insulation coverage per case
Application	Apply 4 ribbons ¼" to ½" in width for each insulation panel
Container Sizes	6 Liters
