

ERS-ORGANIC BASE SHEET(A)

ASPHALT SATURATED ORGANIC FELT

ASPHALT SATURATED ORGANIC FIBER FELT

DESCRIPTION

ERS-Organic Base Sheet(A) is an organic fiber mat saturated, and heavily coated on both sides with coating grade asphalt. The ERS-Organic Base Sheet is designed to provide a stable and consistent base under Hot or cold-applied asphalt built-up roofs or hot-applied coal tar pitch built-up roofs. The rolls are marked with 4" lap lines.

APPLICATION

ERS-Organic Base Sheet(A) may be fully adhered in approved hot or cold applied adhesives, or mechanically fastened. ERS-Organic Base Sheet(A) can be used as ply sheets in a hot-applied asphalt roof system or coal tar pitch built-up roof systems. Approved hot-applied adhesives are ERS-All Temp, ERS-Hot Flex, ERS-Coal Tar, standard Types I-IV asphalt, or standard coal tar pitch. Approved cold-applied adhesives are ERS-302, ERS-309, or other authorized asphalt cut-back adhesives. It is important that the installer completely overlay, in shingle fashion, each ply to the desired line.

SPECIFICATIONS

Manufactured to meet the requirements of ASTM-D-2626.
