

ERS-WALK PADS

WALK PADS

MAXIMUM PROTECTION FOR ALL TYPES OF ROOF SURFACES

DESCRIPTION

ERS-Walk pads are made from recycled automobile tire rubber and are designed to be a rugged, traffic-bearing surface that will protect virtually any roof surface from damaging foot traffic.

FEATURES

ERS-Walk Pads are not affected by high roof top temperatures or freeze-thaw cycles in colder climates. ERS-Walk Pads can be adhered to asphalt roofing with ERS-300 Asphalt Mastic, ERS-306 Roof Elastomer, or ERS-Double Sided Tape. ERS-Walk Pads are easily cut to conform to roof top penetrations or drain openings.

PHYSICAL PROPERTIES

Walk pad dimensions	3' x 4' x 1/2"
	3' x 4' x 3/8"
Color	Black
