NOTES:

1. This detail should be used only where the deck is supported by the outside wall.
2. This detail is designed for light-gauge metals such as 16-oz. copper, 24 gauge galvanized metal or 0.40 aluminum. A tapered edge strip is used to raise the flange edge.
3. Attach nailer to masonry wall. Refer to Factory Mutual Sheet I-49.
4. Wood blocking may be slotted for venting where required.
