Section 1:
STATEMENT OF POLICY

1.1 General Policy & Authorized Use
1.2 System Selection
1.3 Guarantees
1.4 Approved Applicators
1.5 Ineligible Roofs

Section 2:
GENERAL DESIGN RECOMENDADIONS

2.1 Deck Design
   2.1.1 General
       2.1.1.1 Design Loads
       2.1.1.2 Corrective Action
       2.1.1.3 Wood Nailers
       2.1.1.4 Slope
   2.1.2 Steel/Metal Decks
   2.1.3 Poured Concrete Decks
   2.1.4 Pre-Cast/Pre-Stressed Concrete Slabs
   2.1.5 Gypsum
   2.1.6 Lightweight Structural Concrete
   2.1.7 Lightweight Insulated Concrete
   2.1.8 Wood Plank Decks
   2.1.9 Plywood and O.S.B. Board Decks
   2.1.10 Cementious Wood Fiber
   2.1.11 Other Deck Systems

2.2 Insulation Selection
   2.2.1 General
   2.2.2 Wood Fiberboard
   2.2.3 ERS Redi-Dek
   2.2.4 Perlite
   2.2.5 Fiberglass
   2.2.6 Basalt Wool
   2.2.7 Cellular Glass
   2.2.8 Polyisocyanurate
   2.2.9 Phenolic
   2.2.10 Asphalt & Perlite Aggregate
   2.2.11 Expanded Polystyrene
   2.2.12 Barrier Boards
   2.2.13 Tapered Insulation Systems
   2.2.14 Extruded Polystyrene & Others

2.3 Insulation Fasteners & Adhesives
   2.3.1 Steel Decks
   2.3.2 Structural Concrete Decks
   2.3.3 Gypsum Decks
   2.3.4 Wood Decks
   2.3.5 Fastener Selection Guide
   2.3.6 ERS-Insulhesive

2.4 Ecology Membranes
   2.4.1 General
   2.4.2 System Felts
       2.4.2.1 Ply Sheets
       2.4.2.2 Base Sheets
       2.4.2.3 Cap Membranes

2.5 Ecology Adhesives, Primers,
Mastics, Coatings, & Sealants
   2.5.1 General Recommendations
   2.5.2 Hot Application Asphalts
   2.5.3 Cold Process Adhesives
   2.5.4 Primers & Roof Mastics
   2.5.5 Coatings
   2.5.6 Calking Sealants

2.6 Other Design Considerations
   2.6.1 Steep Slopes With Insulation
   2.6.2 Steep Slopes With Out Insulation
   2.6.3 Expansion Joints
   2.6.4 Vapor Retarders
   2.6.5 Drainage
   2.6.6 Perimeter Nailers & Curbs
   2.6.7 Cant Strips
   2.6.8 Lead Flashings & Metal Surfaces
   2.6.9 Electrical, Piping & Other Equipment
   2.6.10 Walkways
2.7 Application Procedures For Modified Roof Systems

2.7.1 General

2.7.2 Application of Ecology Base Ply Membranes

2.7.3 Application of Ecology Hot SBS/SEBS Modified Asphalt Membranes

2.7.3.1 General

2.7.3.2 Using Hot Asphalt To Install Modified Membranes

2.7.3.3 Using Cold Process Adhesive to Install Modified Membranes

2.7.4 Torch/Heat Weld Application of Modified Membranes

2.7.5 End Lap Treatment

2.7.6 Flashing Details

2.7.7 Application of Ecology’s Roof Coatings

2.7.7.1 General

2.7.8 Aggregate/Mineral Surfacing

2.7.8.1 General

2.7.8.2 Applying Roofing Aggregate Surfacing

2.7.8.3 Cold Applied Mineral Surfacing

2.7.9 Walkway Installation

2.8 Recover Application

2.8.1 General

2.8.2 Coal Tar

2.8.3 Without Insulation

2.8.4 With Insulation

2.9 Water Cut Offs

2.10 Storage & Handling of Materials

2.11 Cold Weather Applications

2.12 Safety Procedures

2.13 Maintenance & Repair

Section 3:
ECOLOGY MODIFIED BITUMEN SPECIFICATION SELECTION

3.1 General

Modified Bitumen Selection Guide

3.2 Specification Selection

Individual Specification Procedure Sheets W/Drawings for 2-ply or 3-ply in Hot, Cold or Torch Applied

3.3 Example and Specification Legend

Section 4:
ROOFING DETAILS

4.1 Modified Roofing Details

4.1.1 General Design Criteria

4.1.2 Acceptable Membranes

4.1.2.1 SBS/SEBS Cap Membranes

4.1.3 Installation

4.1.3.1 General

4.1.3.2 Cant/tapered Edge Strips

4.1.3.3 Masonry/Metal

4.1.3.4 Drains

4.1.3.5 Pitch Pans

4.1.3.6 Vent Stacks & Other Metal Projections

4.1.4 Base Pies

4.1.5 Torch-Applied Flashing Membranes

4.1.6 SBS/SEBS Hot & Cold Process Membranes

4.1.7 Temporary Terminations

4.1.8 Metal Counterflashings

4.1.9 Metal Securement

4.1.10 Listing of Ecology Modified Roof Details

Modified Bitumen Detail Drawings
Section 5:
PRODUCTS OFFERED

Coatings
ERS-100 SBS Modified Emulsion
ERS-200 F/N Asphalt Emulsion
ERS-305 Aluminum Water Base Coating
ERS-307 A Asphalt Roof Restaurant
ERS-307 E Water Based Roof Restaurant
ERS-307 T Tar Based-Roof Restaurant
ERS-308 Aluminum Roof Coating
ERS-308 F Fibrated Aluminum Roof Coating
ERS-White Top
ERS-Eco Coat

Primers
ERS-301 Asphalt Primer
ERS-Clear Primer
ERS-Eco Shield Primer
ERS-Joint Prime
ERS-5600 Primer

Mastics
ERS-300 Asphalt Mastic
ERS-300 T Tar Based-Mastic
ERS-304 Flashing Mastic
ERS-304 MB Modified Flashing Cement
ERS-306 Elastomeric Mastic
ERS-315 Tar Based-Mastic (Wet Patch)
ERS-M-10

Fabrics
ERS-310 Polyester Ply Sheet
ERS-311 Fiberglass Mat
ERS-312 Fiberglass Repair Fabric
ERS-314 Saturated Jute Repair Fabric

Adhesives
ERS-302 Inter-Ply Adhesive
ERS-309 Rubberized Inter-Ply Adhesive
ERS-7001 EPDM Adhesive
ERS-8001 Flashing Adhesive for ERS-8000 FL
ERS-8002 Substrate Adhesive
ERS All Temp Asphalt
ERS Hot Flex Rubberized Asphalt
ERS Insulhesive

Accessory Products
ERS-2 Sided Tape
ERS-303 Multi-purpose Calk
ERS-303 U (one part) Urethane Calk
ERS-303 HP (two part) Urethane Calk
ERS-900 CS - Cover Strip for Seams/ERS-900
ERS-8000 FL Flashing Sheet
ERS-8000 Accessories
ERS-8000 Trim Strip - Cover Strip for Seams/ERS-8000
ERS-8003 Pre-fab. Inside Corner/ERS-8000
ERS-8004 Pre-fab. Outside Corner/ERS-8000
ERS-8005 Seam Sealer/ERS-8000
ERS-8006 Pre-fab. Pipe Boots/ERS-8000
ERS-8007 Walk Tred/ERS-8000
ERS-8008/8009 Pre-Clad Metal/ERS8000
ERS-Insulation Poly Styrene Insulation
ERS-Insulation Vents
ERS-Low Profile Expansion Joint
ERS-Recovery Board
ERS Walk Pads

Membranes
ERS-400/400-6 Fiberglass Ply Sheet
ERS-401 Fiberglass Base Sheet
ERS-402 Tri Dimensional Base Sheet
ERS-403 Vented Base Sheet
ERS-410 Polyester Ply Sheet
ERS-500/4/6 SBS Fiberglass Base Sheets
ERS-500-6P SBS Polyester Base Sheet
ERS-501/502 SBS/SEBS Modified Cap Sheet
ERS-503/504 SBS Modified Cap Sheet
ERS-505 Mineral Surface SBS Cap Sheet
ERS-507 Mineral Surface SBS Cap Sheet
ERS-600 SBS Aluminum Surfaced Sheet
ERS-602/603 SBS Torching Cap Sheet
ERS-604/604T Mineral Surface SBS Cap Sheet
ERS-900 Pitch Modified Roof Sheet
ERS-900 Base Sheet
ERS-900 VB
ERS-920 Pitch Modified Roof System
ERS-920 WS Pitch Modified Roof System W/Welded Seams
ERS-5000 (White) Pitch Modified Roof System
ERS-5000 WS (White) Pitch Modified Roof System W/Welded Seams
ERS-7000 EPDM Roof Sheet
ERS-8000 FB Fleece Backed Elvaloy Roof Sheet
ERS-8000 MA Mechanically Attached Elvaloy Roof Sheet

Specialty Systems
ERS-9000
ERS-9001
ERS-5600
ERS-Eco Shield
ERS-Eco Green Roof
ERS-Solar Quilt
Section 6:
ERS-8000 FA SPECIFICATION & DETAILS

6.1 General

6.2 Materials-Extrusion Coated
(Polyester Reinforced)
   6.2.1 Adhered Sheet Roofing
       Membrane

6.3 General Design
Recommendations
   6.3.1 Deck design-Refer to Section
       (2.1.1 thru 2.1.11)
   6.3.2 Insulation-Refer to section
       (2.2.1 thru 2.2.14)
   6.3.3 Insulation Fasteners &
       Adhesives-Refer to section
       (2.3.1 thru 2.3.6)

6.4 BONDING METHODS

6.5 SUBSTRATE PREPARATION
   6.5.1 Replacement.
       6.5.1.1 Gravel

6.6 OTHER MATERIALS
   6.6.1 Walkways
   6.6.2 Calking

6.7 INSTALLATION
   6.7.1 ERS-8000 Placement &
       Seaming
   6.7.2 Adhesion
   6.7.3 Lap Joints

6.8 FLASHINGS

6.9 GUARANTEE

6.10 PRODUCT CAUTION & STORAGE

Section 7:
ERS-8000 MA SPECIFICATION & DETAILS

7.1 General

7.2 Materials-Extrusion Coated
(Polyester Reinforced)
   7.2.1 Adhered Sheet Roofing
       Membrane

7.3 General Design
Recommendations
   7.3.1 Deck design-Refer to Section
       (2.1.1 thru 2.1.11)
   7.3.2 Insulation-Refer to section
       (2.2.1 thru 2.2.14)
   7.3.3 Insulation Fasteners &
       Adhesives-Refer to section
       (2.3.1 thru 2.3.6)

7.4 SUBSTRATE PREPARATION
   7.4.1 Replacement.
       7.4.1.1 Gravel

7.5 OTHER MATERIALS
   7.5.1 Walkways
   7.5.2 Calking

7.6 INSTALLATION
   7.7.1 ERS-8000 Placement &
       Seaming
   7.7.2 Fasteners
   7.7.3 Lap Joints

7.7 FLASHINGS

7.8 GUARANTEE

7.9 PRODUCT CAUTION & STORAGE
